Will/Mike,

I cancelled my attendance at the Quality Meeting in Houston this week and wanted to keep you both in the loop.

I will be in the office all week.

Sorry you can't make it. The Animas river is far more important. Good luck. I just heard that the R6 Reserve

Support Corp (non OSCs) has been activated as Community Liaisons. I'll let you know when the next class is scheduled.

Walt,

I am so sorry to cancel my attendance at the training this week.

I don't know if you are aware but START has been tasked to respond to the Gold King Mine Blowout that is impacting New Mexico surface water, sediments and groundwater. We have approximately 20 persons deployed at this point and it seems to be growing. As the Program Manager I need to remain engaged in the response to ensure that Weston provides the needed support to EPA.

I regret missing as this would be a great example of DQO development – which we are in the process of generating for water and sediments.

Thank you for including me and I apologize for cancelling.

Ceci Shappee
